

## **The Sum of Your Life**

© 2013, by Don Poss

The sum of your life is what others judge its worth...  
or so they would have you believe.

Matters not they no longer measure to their own life's ruler,  
and who they are this day—it's who you were in the time-  
frame of their own choosing.

Our proclamation is firm, they say in a sage's wise voice,  
So take the bruising (you clod), it's for your own good.
