PTSD

His dreams were crazy,
So they locked him away.

Soldier's Heart,
Combat Fatigue,
Gross Stress Reaction,
Post-Vietnam Syndrome,
PTSD,
Battle Fatigue,
Shell Shock

--All names for Cowards...
a weak man's disease.

VA never met a vet's claim it wouldn't
deny... indifferently and with joy.
Agent Orange wasn't real
--and then it was...
But not in Thailand
--and then it was.

Why is he crying?
A wimp.
A wuss.
Did he take his Meds?
Get the Jacket,
That'll shut him up, and
If not, there's a shot to put him out.

Break time--*I wonder what's his*
problem? Man Up vet.
