

Sorry'bout the broken links (they worked and then they didn't).
The below Links work :)

For years I have urged members to file claims with the VA for deserved benefits. I have also encouraged members to update their DD-214. All the while, *I did neither*. Now, I may be one of the last Đà Nẵng AP/SP to file a claim with the VA. My advocate tells me I will soon receive a request from the VA to submit any *new evidence* supporting the events of my claim. It occurred to me that you may be able to help in the form of an email of support, *if* you recall hearing about, or have first-hand knowledge, or any info about any of the six events of my claim.

Below are six (6) links to stories that are to be posted in the near future (some are updates). I would appreciate it very much if you would click these links and read the short stories. If you heard about the story, or know anything about it, then please click on that stories' [Comment Link](#) at the bottom of that page. If you don't have any info then you can still comment about anything, or just pass that one.

Thank you for any info you may provide,

Welcome Home,

dn- [Don Poss](#)
