**Photo #1 (NKP RTAFB): Tower-One Tango-Bravo**

Hi, I've sent some images you may find useful. Last week I sent an image of a tower in Bravo sector at NKP and mentioned that it was taken in April of 1975. I said I had some other photos and you wrote back expressing an interest in them.

Attached are 5 photos I took one morning in April 1975 of the tower, and tower views, before sun up. The tower is located on the north perimeter in Bravo sector. The images are views to the east, west, north, and south.

Also attached are 5 images I took through a tower mounted NOD scope one night. The tower was located on the west perimeter. I think the tower was in Bravo sector but I'm not sure. The camera was a 35mm SLR and I just aimed it through the scope. The images show the perimeter fence, rice fields, and a bunker.

I hope you find these useful in your project. Thanks for giving me the opportunity to share them with you.
