### AS FAR AS I CAN SEE

Hold a candle come touch me, caress me with its light  
Then hand it to another, chase away the dark of night.  
Make it bright forever keep it burning for all time just as  
a reminder to keep others from the line.

As far as I can see  
As far as I can see  
There's a line of people waiting  
As far as I can see

Can you see a line of people, stretching to the sky  
Can you see their names go with them as you pass them by? O  
friend can you see that never-ending stone?  
People feeling with their fingers now I know I'm not alone.

As far as I can see  
As far as I can see  
There's a line of people waiting  
As far as I can see.
