

Aborted Dreams

PTSD

(c) 2013 by Don Poss

You want the dreams *gone*—cleaved—aborted
rid of their mischievous drama. Would that *want*
could make it so.

Alas, unaborted dreams are here to stay; boiling,
dormant, submerged, or at play, but *never-ever*
going away; pray they not metamorphosis in
your embodied mind, should they be born—it's
rubber room time.
