1) Above photo was taken around May 1966 while I was on Beach Patrol in Phan Rang. Gary Adams was taking this photo. Back then, it was a 2-man 24 hour post. As I recall, we were about 12 miles from AP Headquarters and didn't know that our radio's wouldn't reach them at times!

2) We used to hump up that draw to get to the OP before night. What a haul with all that gear. This was taken April or May of 1966. As I recall a road was made when the MARS site was built there. Then we could drive up instead of humping.
