

**PTSD: Loose Bolt**

**© 2013 by Don Poss**

First man died  
I didn't cry  
It was too much like a movie.

A few at a time was not a  
Crime, in fact it was kind'a groovy.

A civilian again...  
What they think's a sin  
is killin' trees, and raping earth;  
environment is their new religion.

As long as you agree with them,  
it's *whatever floats your boat*,  
and justifies *whatever* you want.  
No one's fit to judge.

They're not like me, their freedom wasn't free,  
I run loose, and bolt from their scene.
