

Chase Omega

(c) 2013 by Don Poss

How infinite is God...

There at creation's beginning, the alpha and omega...
set the heavens to blaze in starlight, naming them one by one,
giving light to the void.

He set mountains to rise above oceans,
wither to valleys,
fall beneath the seas,
and be reborn again through the eons.

He breathed life to Adam,
Generations to live and die like brief flickers of light.
Caused the cleansing flood, parting of the sea...
and gave salvation through his Son...

He is Eternal; The Great I Am.
