---

How infinite is God...  
There at the beginning  
The creation  
The breath of life to Adam  
The flood  
Parting of the sea  
And all through the eyes of the living in real time,  
He watched mountains wither to valleys and depress into oceans.  
Saw countless stars blaze alive and named them one by one.

Generations lived and died  
Like brief flickers of light...a wavering vapor

Eternal is the I Am.

Not enough to live the life  
Without sharing what life you are living--an eternal relationship with God awaits the few...  
Judgment is his jest.

Thank you,

Don Poss
