

[37] The Main Gate at Đà Nẵng AB, RVN 1969.

[38] *Close Up*

[39] Looking toward Freedom Hill 327 from the Mortar Site.

[40] The *Silk Factory* that was at the South end of the runway outside the perimeter. Charlie took it in Tet 1969, set up a .51 cal machinegun and raised hell until the Marines *reped* it.

[41] Looking toward *Gunfighter Village*, from the Mortar Site. The center building took a 122 Rocket just prior to this pic being taken.

[42] Looking South from the Mortar Pit. I use to watch B-52 Bombers' strikes walk along the mountain in the central background.
