**REAL COMBAT EXPERIENCE IS A REAL LIFESAVER.**

The HH-47 is the one option for the U.S. Air Force combat search and rescue program that's proven itself more than any other where it really counts—in combat. Uniquely capable at high altitudes and fully mission-compliant with its terrain following/avoidance radar, advanced avionics and aerial refueling capability, the HH-47 is the low-risk, no-compromise solution. A real warrior and a real lifesaver.
