

17 May 1975

Summary of Casualties due to NON HOSTILE INCIDENTS in Southeast Asia -
continued.

THAILAND (B1): On 13 May 1975, a CH-53 helicopter carrying 23 Air Force personnel was lost from radar and no radio contact could be made. The incident occurred 36 miles southwest of Nakhon Phanom Airport while the helicopter was on a classified mission. Another CH-53 helicopter in the area spotted the crash scene due to the fires burning and reported no chance of any survivors. During the search of the wreckage, all 23 remains were recovered from the crash.
